Bostock (Gorsuch, 2020) is the worst SCOTUS decision since Obergefell (Kennedy, 2015).

We all knew that'd be the case. But the left's almost total reliance on Bostock to support its insane cram-down of the radical LGBTQ/SOGI agenda is breathtaking.

Once again, Chip is one of a tiny handful of Texas Republicans with a spine, unwilling to capitulate to an obviously fraudulent election. Wish there were others.

I've spent 48 hrs talking to leaders in GA, AZ, PA re: election. There's nothing to fear about re-count. I don't know the result, but it should/will be done. AZ is trending to 50/50, GA is 7000 of 5 million with some questions, & PA is wider but questions. Let's check / gain confidence.
