

United States Senate

WASHINGTON, DC 20510

COMMITTEES:
BUDGET
ENERGY AND NATURAL RESOURCES
ENVIRONMENT AND PUBLIC WORKS
JUDICIARY
RULES AND ADMINISTRATION

April 1, 2026

The Honorable John Kennedy
Chair
Subcommittee on Energy and Water
Development
Senate Committee on Appropriations
United States Senate
Washington, DC 20510

The Honorable Patty Murray
Ranking Member
Subcommittee on Energy and Water
Development
Senate Committee on Appropriations
United States Senate
Washington, DC 20510

Dear Chair Kennedy and Ranking Member Murray,

I certify that neither I nor my immediate family has a pecuniary interest in any of the congressionally directed spending items that I have requested in the Fiscal Year 2027 Subcommittee on Energy and Water Development Appropriations Bill, consistent with the requirements of paragraph 9 of Rule XLIV of the Standing Rules of the Senate. None of the entities for which I have requested congressionally directed spending are for-profit entities.

Sincerely,

A handwritten signature in black ink that reads "Alex Padilla". The signature is fluid and cursive, with the first name "Alex" and last name "Padilla" clearly legible.

Alex Padilla
United States Senator

**Padilla, Alex(D-CA) Energy and Water Development
Congressionally Directed Spending Requests**

Recipient Name	Project Purpose	Project Location	Amount Requested (\$000)
Army Corps of Engineers (Civil)	Funding to support the first construction contract for infrastructure improvements on the Oakland side and the completion of the design phase for the Alameda portion of the project to widen the harbor's turning basins.	Alameda CA	\$56,000
Army Corps of Engineers (Civil)	Funding to advance design and environmental review of the Alameda Point Stormwater Project, which will include a geotechnical slope stabilization and the construction of two new stormwater outfalls, to enhance water quality in the Oakland-Alameda Estuary	Alameda CA	\$1,782
Army Corps of Engineers (Civil)	Funding for a study on solutions to address significant coastal flood risk in the San Francisco Bay Area.	Alameda, Contra Costa, Marin, Napa, San Francisco, San Mateo, Santa Clara, Solano, Sonoma CA	\$750
Army Corps of Engineers (Civil)	Funding for strategic nearshore aquatic placement test and the direct placement of dredged sediment from federal navigation channels in San Francisco Bay to subsidized wetlands restoration sites, including Montezuma, Cullinan, and Bel Marin Keys	Alameda, Contra Costa, Napa, San Mateo, Solano CA	\$12,000
Bureau of Reclamation	Funding for the Bellota Weir for a replacement and upgrade of critical infrastructure to deliver drinking water.	Bellota Weir Modifications Project CA	\$23,000
Army Corps of Engineers (Civil)	Funding to construct a wastewater treatment facility and focused collection system to serve key commercial corridors and housing areas in the Town of Paradise	Butte CA	\$2,400
Army Corps of Engineers (Civil)	Funding to conduct surveys, complete designs, award construction contracts for the repair of critical erosion sites along the Sacramento River	Butte, Colusa, Fresno, Glenn, Kern, Kings, Madera, Merced, Placer, Sacramento, San Joaquin, Shasta, Stanislaus, Sutter, Tehama, Tulare, Yolo, Yuba CA	\$6,000
Army Corps of Engineers (Civil)	Funding to upgrade the treatment capabilities at the Copper Cove Wastewater Reclamation Facility, increase storage capacity to provide reclaimed wastewater for irrigation, and prevent future wastewater discharges to environmentally sensitive areas	Calaveras CA	\$3,100
Army Corps of Engineers (Civil)	Funding for Water System Well Improvements, including a PFAS Ion Exchange Treatment Plant, a Booster Pump, and Reservoir Construction to supply potable water, increase drinking water supply, and reduce contamination PFAS levels	City of Bell Gardens CA	\$12,500
Army Corps of Engineers (Civil)	Funding for the construction of a 2.0 million water storage reservoir and booster station for citywide water distribution	City of Lynwood CA	\$3,500
Army Corps of Engineers (Civil)	Funding to rehabilitate and redevelop an existing municipal groundwater well	City of Lynwood CA	\$2,500
Army Corps of Engineers (Civil)	Funding for the evaluation, design, and environmental permitting of infrastructure modifications to the Butte Slough Outfall Gates to enhance juvenile salmon habitat and adult migration in the Sacramento River and Sutter Bypass while supporting flood risk reduction and water quality	Colusa, Sutter CA	\$5,000
Bureau of Reclamation	Funding to promote salmon recovery, water supply reliability, flood protection, and groundwater.	Counties of Butte, Colusa, Glenn, Sutter, Tehama, Yolo CA	\$15,000

Army Corps of Engineers (Civil)	Funding to initiate a feasibility study analyzing raising Pine Flat Dam.	Fresno CA	\$750
Army Corps of Engineers (Civil)	Funding to reoperate the Big Dry Creek Reservoir and the Fancher Creek Reservoir to allow for conservation storage in an otherwise dry reservoir	Fresno CA	\$2,000
Army Corps of Engineers (Civil)	Funding to support continued work for the development of a preferred plan to address the long-range public health and environmental management of the Salton Sea	Imperial, Riverside CA	\$2,146
Army Corps of Engineers (Civil)	Funding to develop a new municipal production water well.	Inyo CA	\$2,500
Army Corps of Engineers (Civil)	Funding to evaluate and design stormwater management facilities around Lone Pine	Inyo CA	\$938
Army Corps of Engineers (Civil)	Funding to initiate construction of an approximately 50-mile pipeline to interconnected the currently isolated Indian Wells Valley Groundwater Basin to the State of California Water Project	Kern CA	\$5,000
Army Corps of Engineers (Civil)	Funding for operation and maintenance dredging to ensure safe navigation for public safety and rescue operations.	Los Angeles CA	\$16,388
Army Corps of Engineers (Civil)	Construction and design of an iron and manganese treatment system.	Los Angeles CA	\$3,500
Army Corps of Engineers (Civil)	Funding for the purchase and installation of generators for water well sites.	Los Angeles CA	\$3,000
Army Corps of Engineers (Civil)	Funding for the demolition and removal of the existing reservoir, site grading, and construction of the new reservoir to improve water supply reliability, stabilize water pressure, and enhance water service	Los Angeles CA	\$3,750
Army Corps of Engineers (Civil)	Funding to complete construction of a storm drain pipeline system	Los Angeles CA	\$6,000
Army Corps of Engineers (Civil)	Funding will be used to complete design documents for upgrades to the Central Water Treatment Facility to provide increased water supply system resilience, reliability, and water quality	Los Angeles CA	\$2,000
Bureau of Reclamation	Funding for ongoing design, construction, and treatment and remediation costs to facilitate groundwater cleanup efforts in the San Gabriel Valley	Los Angeles County CA	\$10,000
Bureau of Reclamation	Funding will be used to modernize water distribution system through advanced meter installations.	Los Angeles County CA	\$2,000
Army Corps of Engineers (Civil)	Funding for the restoration of seasonal and tidal wetland habitat and reduction of open-water dredged sediment disposal through beneficial use	Marin CA	\$2,500
Army Corps of Engineers (Civil)	Funding for a pipeline to bring in water from the Russian River watershed to Marin Water's Nicasio Reservoir, for the storage of surplus winter water for later use during dry months and drought years	Marin CA	\$2,500
Army Corps of Engineers (Civil)	Funding to complete a feasibility study to address water-resource, flood-risk mitigation and environmental restoration problems	Marin CA	\$1,500

Army Corps of Engineers (Civil)	Funding for study to assess potential modifications to increase reservoir storage, improve water supply reliability, enhance flood risk management, and support ecosystem health in the Russian River watershed	Mendocino CA	\$1,858
Bureau of Reclamation	Funding for a study to recommend options for increasing access to safe drinking water in the Westside-San Joaquin region	Merced CA	\$1,500
Army Corps of Engineers (Civil)	Funding for the construction of a flood protection facility that would impound storm water within the Black Rascal Creek watershed and reduce the occurrence of flooding	Merced CA	\$10,000
Army Corps of Engineers (Civil)	Funding to increase the current reliable flow capacity of the existing pump station to better serve the existing industrial users that discharge to this location	Monterey CA	\$2,000
Army Corps of Engineers (Civil)	Funding to reconstruct failing flood control levees along the Pajaro River and its tributaries in Santa Cruz and Monterey Counties.	Monterey, Santa Cruz CA	\$171,641
Army Corps of Engineers (Civil)	Funding to advance design of a raw water pipeline and pumping facilities to improve regional water supply reliability	Placer CA	\$3,445
Bureau of Reclamation	Funding for Placer County to launch the first phase of a groundwater recharge program to bolster the District's water supply reliability and drought preparedness.	Placer County CA	\$1,000
Army Corps of Engineers (Civil)	Funding to protect the drinking water quality of the aquifers in the Mission Creek and Indio Subbasins	Riverside CA	\$4,000
Army Corps of Engineers (Civil)	Funding to complete construction of the remaining Phase 2B Murrieta Creek flood control improvements to increase flood protection for the City of Temecula	Riverside CA	\$47,614
Army Corps of Engineers (Civil)	Funding to support the engineering, design, and environmental compliance of a multi-benefit floodplain reconnection project along the Cosumnes River, reducing flood risks for surrounding communities, improving groundwater recharge, and restoring critical floodplain habitat	Sacramento CA	\$2,000
Army Corps of Engineers (Civil)	Funding for Flood Risk Reduction for the American River Watershed Common Features Natomas Basin project.	Sacramento CA	\$232,256
Army Corps of Engineers (Civil)	Funding for upgrades and design planning for renovation of new sewer lines for Sacramento State	Sacramento CA	\$1,500
Army Corps of Engineers (Civil)	Funding to support a feasibility study to evaluate flood risk reduction measures, habitat restoration opportunities, and water supply reliability improvements throughout the Cosumnes River Watershed	Sacramento CA	\$750
Army Corps of Engineers (Civil)	Funding for Phase 1 of construction for a 6.5-mile water pipeline to import surface water and dilute City's ground water to reduce salt content	San Benito CA	\$3,500
Army Corps of Engineers (Civil)	Funding for a Preliminary Assessment for a larger feasibility study to investigate flood risk management around San Diego Bay.	San Diego CA	\$750
Army Corps of Engineers (Civil)	Funding to continue maintenance dredging at the entrance to Oceanside Harbor and U.S. Marine Corps Base Camp Pendleton Harbor, the only harbor between San Diego and Dana Point and a designated critical harbor of refuge	San Diego County CA	\$4,302

Army Corps of Engineers (Civil)	Funding to carry out dredging, sediment removal, and beneficial use of dredged material	San Diego County CA	\$2,500
Army Corps of Engineers (Civil)	Funding for upsizing of stormwater drainage infrastructure to increase drainage, prevent flooding, and improve water quality	San Diego County CA	\$3,000
Army Corps of Engineers (Civil)	Funding to support preconstruction, engineering, and design of coastal flood defenses.	San Francisco CA	\$10,000
Army Corps of Engineers (Civil)	Funding for the Farmington Reservoir Project for a study to analyze the option to modify the Farmington Dam.	San Joaquin CA	\$1,800
Army Corps of Engineers (Civil)	Funding for annual operation and maintenance dredging for the authorized navigation depth along the Stockton Deep Water Ship Channel.	San Joaquin CA	\$14,269
Army Corps of Engineers (Civil)	Funding to construct a storm drain retention pond and associated conveyance facilities	San Joaquin CA	\$2,416
Army Corps of Engineers (Civil)	Funding to improve stormwater draining abilities in the Boggs community in San Joaquin County	San Joaquin CA	\$2,500
Army Corps of Engineers (Civil)	Funding to advance the next phase of a drainage system to reduce flood risk and increase water supply resiliency	San Joaquin CA	\$2,000
Army Corps of Engineers (Civil)	Funding for the construction of flood control measures to protect over 300,000 residents of the greater Stockton metropolitan area, critical infrastructure, and damageable property exposed to potential flooding from the San Joaquin River, Calaveras River, and Bay Delta	San Joaquin CA	\$150,000
Bureau of Reclamation	Funding for the City of Escalon to construct a pipeline to improve long term water reliability.	San Joaquin CA	\$4,791
Bureau of Reclamation	Funding to address salt accumulation in surface and groundwater in the Central Valley	San Joaquin County CA	\$1,800
Bureau of Reclamation	Funding for the San Joaquin Valley Water Collaborative Action Program, to ensure a sustainable and resilient water supply for the San Joaquin Valley	San Joaquin, Stanislaus, Merced, Madera, Fresno, Kings, Tulare, and Kern Counties CA	\$720
Army Corps of Engineers (Civil)	Funding for annual maintenance and dredging of Morro Bay Harbor.	San Luis Obispo CA	\$4,624
Army Corps of Engineers (Civil)	Funding for dredging and beneficial reuse of sediment in the Back-Bay	San Luis Obispo CA	\$2,024
Army Corps of Engineers (Civil)	Funding for a comprehensive study on flood risk reduction that includes both coastal and interior flooding in the City of San Mateo	San Mateo CA	\$1,050
Army Corps of Engineers (Civil)	Funding to conduct a study of measures to provide flood protection and reduce resulting coastal erosion along the central Pacific Ocean shoreline areas of San Mateo County	San Mateo CA	\$500
Army Corps of Engineers (Civil)	Funding for a study to protect a vulnerable and flood-impacted Pacific Coastline regional wastewater sanitation facility	San Mateo CA	\$500
Army Corps of Engineers (Civil)	Funding to support annual dredging of the federally authorized Santa Barbara Harbor	Santa Barbara CA	\$4,000

Bureau of Reclamation	Funding for the continuation of the South Bay Water Recycling Zone 1 Storage Tank and Pump Station Project.	Santa Clara CA	\$3,000
Army Corps of Engineers (Civil)	Funding will be used to support the design phase of the Jurgens Pump Station Project to improve capacity for pumping storm runoff into the Penitencia Creek	Santa Clara County CA	\$3,000
Army Corps of Engineers (Civil)	Funding for dredging to maintain harbor operations	Santa Cruz CA	\$740
Army Corps of Engineers (Civil)	Funding to replace six undersized culverts, raise the road along West Beach Road at the Watsonville Slough crossing, and improve and preserve salt marsh floodplain habitat	Santa Cruz CA	\$12,827
Bureau of Reclamation	Funding for infrastructure improvements to water diversion and treatment systems and a feasibility study for an alternative Sacramento River water supply	Shasta County CA	\$5,000
Army Corps of Engineers (Civil)	Funding for the second increment of the Llano Trunk Project to rehabilitate sewer trunk line.	Sonoma CA	\$3,565
Army Corps of Engineers (Civil)	Funding to construct infrastructure to capture stormwater and high-flow events and recharge critically overdrafted groundwater aquifers.	Stanislaus CA	\$3,800
Bureau of Reclamation	Funding for Sutter County to improve water delivery for South Sutter Water District.	Sutter County CA	\$3,700
Army Corps of Engineers (Civil)	Funding to support maintenance dredging of Channel Islands Harbor	Ventura CA	\$16,346
Bureau of Reclamation	Funding to complete physical modeling for improvements to the Robles Diversion Project to improve water supply reliability, sediment transport, flood protection, and aquatic habitats	Ventura CA	\$200
Army Corps of Engineers (Civil)	Funding to carry out a General Reevaluation Report in the Cache Creek Basin	Yolo CA	\$1,500
Army Corps of Engineers (Civil)	Funding for annual operation & maintenance dredging to ensure safe navigation and uninterrupted operations at Ventura Harbor	Yuba CA	\$8,846
